

SPATIO-TEMPORAL MODELS WITH INLABRU

15–18 September 2026 • Dodoma, Tanzania Jafet Belmont • Sara Martino • Janine Illian

1 Welcome to the course!

- Welcome to the `inlabru` workshop in Dodoma!
- The aim of this workshop is to introduce you to a range of statistical modelling approaches, and how temporal, spatial and spatio-temporal models can be fitted using the `inlabru` package.
- Workshop materials are available in the github repository.

Important! □

Please use the instructions provided [here](#) to install and check your installation *before* the course starts.

2 Learning Objectives for the workshop

At the end of the workshop, participants will have an understanding of:

- the motivation for and the challenges of analysing and modelling spatial data
- statistical models used to analyse spatial and spatio-temporal data
- the implementation of these models in the `inlabru` package
- how to independently analyse spatial data with `inlabru`

3 Intended audience

The workshop aims to cater for participants with a range of different backgrounds, who are interested in analysing data with modern spatial and spatio-temporal statistical modelling approaches.

4 Prerequisites

Participants should be familiar with the R environment, and general statistical approaches for modelling such as regression, analysis of (co)variance, and generalized linear models.

No knowledge of R-INLA or `inlabru` is required.

5 Schedule

5.0.1 Tuesday 15th

Time	Topic
9:00 - 9:30	Welcome and introduction to the course
9:30 - 10:30	Session 1: Introduction to inlabru
10:30 - 10:45	Coffee break ☐
10:45 - 12:00	Practical Session 1
12:00 - 13:00	Session 2: The inlabru workflow
13:00 - 14:30	Lunch ☐
14:30 - 15:30	Practical Session 2
15:30 - 15:45	Coffee break ☐
15:45 - 17:00	Session 3: Time Series Models

5.0.2 Wednesday 16th

Time	Topic
9:00 - 10:30	Practical Session 3
10:30 - 11:00	Coffee break ☐
11:00 - 12:00	Session 4: Introduction to Spatial Statistics
12:00 - 13:00	Practical Session 4
13:00 - 14:30	Lunch ☐

5.0.3 Thursday 17th

Time	Topic
11:00 - 12:00	Session 5: Areal processes
12:00 - 1:00	Session 6: Geostatistics
13:00 - 14:30	Lunch ☐
14:30 - 15:50	Session 7: Point Processes
15:30 - 17:00	Practical Session 5

5.0.4 Friday 18nd

Time	Topic
09:00 - 10:00	Session 8: Spatiotemporal models
10:00 - 11:00	Session 9: Model comparison and evaluation
11:00 - 12:00	Coffee break ☐
12:00 - 13:00	Practical Session 6
13:00 - 14:30	Lunch ☐
14:40 - 15:30	Session 10: Multi-likelihood/joint likelihood models
15:30 - 16:00	Closing session and discussion
16:00 - 17:00	Practical Session 7 & General practice
